TRUCK**

## Product Description

### 4X2 HOWO TRUCK MOBILE ADVERTISING LED DISPLAY BILLBOARD TRUCK

The composition of the LED advertising vehicle:

- 1. LED advertising truck compartment:** The compartment is a rectangular square frame structure, the interior of the compartment is aluminum checkered plate, installed with lighting, and the front face and rear door are equipped with shutters and exhaust fans. The cabin is equipped with: 2-4 speakers, a power amplifier, a brand computer, and a set of control.
- 2. LED screen:** The car adopts P5/P4/P3 high-resolution LED screen; the area of the LED screen can be customized according to the actual requirements of customers, and it can be done on one side to three sides.
- 3. Lifting system(optional):** The LED screen can be lifted by two hydraulic cylinders. The lifting height is 1.5 or 1.2 meters, so that the audience behind can clearly see the LED screen.
- 4. Power:** The car comes with a high-power ultra-quiet diesel generator, which can be used independently without the support of the power grid and is not limited by the power supply. It is also equipped with a switching distribution box, which can directly use the grid power supply when there is a power supply.
- 5. Hydraulic outrigger:** It is a supporting mechanism installed on the vehicle frame or sub-frame. The whole vehicle is supported by four hydraulic outriggers, so that the whole LED advertising vehicle forms a settlement-free one. The LED screen can be used normally even in the case of windy and uneven ground.
- 6. Advertising light box (optional):** The advertising light box is equipped with an intelligent digital computer to switch pictures, 2-6 pictures are automatically switched, and the exterior is equipped with tempered high transparent glass. The top of the light box can be used as a monochrome LED advertising screen.
