Product Description

The water tank truck is suitable for all kinds of road washing, trees, green belts, lawn greening, construction of roads, factories and mines, and high-altitude buildings. The watering truck can also be used as a water transportation truck. The most common models are sanitation watering truck, multi-function watering truck and green watering truck.

Our company's products come standard with front spray (duck bill), back flush, rear spray, side spray, and rear-mounted working platform. The platform is equipped with a green water cannon (which can be rotated 360°, and can be adjusted to either a column or a mist shape)., it can be adjusted to flush, heavy rain, moderate rain, light rain, drizzle), equipped with high-quality high-power special sprinkler pump (self-priming and self-draining, can pump water from river or pond to tank), power take-off, miscellaneous material filter screen, fire interface, self-flowing ball valve system, ball valve and filter screen are all national standard products, the main pipeline is thickened, the flange gasket and flange plate are thickened, and the large-diameter ball valve is used. The overall performance is excellent, safe and reliable, high efficiency, large flow, convenient maintenance and so on.

8-9 CBM DONGFENG water spray truck Euro 6 cheap china water trucks.
